

## Writing Quality Rating Examples

### 1. Readability

**Prompt:** "Describe the process of photosynthesis."

Bad Example: "Photosynsis invovles, light, water, & Co2 to make oxygn & glucose, it's happens in leafs." ❌

- Multiple spelling and grammatical errors disrupt readability, making the response difficult to read.

### 2. Language Mechanics

**Prompt:** "Explain Newton's laws of motion."

Bad Example: "The principle where first a body at rest stays at rest unless acted on and an object in motion stays in motion and force equals mass times acceleration are Newton's laws of motion." ❌

- Lack of punctuation and poor ordering of ideas make this response very difficult to read.

### 3. Outline & Coherence

**Prompt:** "Outline the benefits of a balanced diet."

Bad Example: "A balanced diet is good. It's about having the right foods. Nutrients and vitamins are important. You should eat fruits and vegetables. Proteins are good for muscles. Carbs provide energy. But don't forget about dairy. Or maybe plant-based alternatives. Water is important too. So is exercise." ❌

- This response is disorganized, jumping randomly between points related to a balanced diet in a jumbled paragraph.
